

ACROLUX

Matte Exterior Paint with an Acrylic Base

Acrolux is an acrylic-based, matte decorative exterior paint.

High resistance to color fading.

Resistant to exterior conditions such as rain, snow, humidity, and extreme heat or cold.

Provides excellent coverage.

Thanks to its water vapor permeability, it allows vapor to escape and the surface to breathe.

Water-based, environmentally friendly, and safe for human health.

APPLICATION AREA

Can be used with a suitable primer on exterior surfaces such as plaster, fiber cement, exposed concrete, and cement boards of all types of buildings.

SURFACE PREPARATION

All dirt, oil, blistered paints, and dust must be cleaned from the surfaces before application.

Surface defects should be repaired with San Deco Acrylic Putty Thick and then primed with San Deco Uniprimer.

It is recommended to use a primer in the same color as the chosen façade color.

SURFACE CONDITIONS

During application and until the products are completely dry, the ambient and surface temperature should be at least +5°C and at most +35°C.

Do not apply under direct sunlight.

The surfaces to be painted must be completely dry.

Ambient humidity should be below 75% during application.

Surface moisture content should be below 10%.

APPLICATION

Acrolux should be thinned with a maximum of 15-20% clean water by volume and mixed homogeneously before application.

Apply two (2) coats to the surface using a roller, brush, or spray method.

Allow a minimum of 4 hours between coats.

If multiple batch numbers are used in the same project, mix them in equal proportions before application to avoid batch-based differences.
