

Ducsia

Metallic Fine Pearl Decorative Paint

Where Shine Meets Sophisticated Texture

Ducsia goes beyond the definition of ordinary paint, offering a sophisticated metallic character that interacts seamlessly with light. With its soft transitions and pearlescent reflections, it transforms the atmosphere of a space through a quiet yet powerful expression.

At first glance, the surface appears subtle and balanced; upon closer observation, it reveals a layered depth that enriches spatial perception. Thanks to its reflections that shift according to the angle of light, walls move beyond being static backdrops and become dynamic, living elements of the interior.

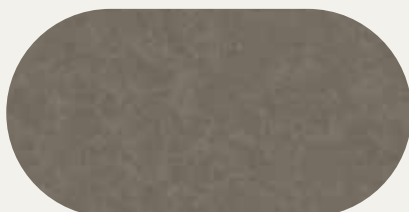

Developed for designs seeking a strong spatial identity, Ducsia works in harmony with modern architectural approaches, bringing a refined elegance and a sense of sophisticated cohesion to the space.

*Digital color card studies are prepared for reference purposes only.
Factors such as pearlescent reflection, lighting conditions, and screen variations may significantly affect color perception.
For accurate and final color selection, evaluation based on the printed color card is recommended.*

Theoretical Consumption & Other Information

For single-coat application, depending on surface smoothness, absorbency, and application techniques;

Consumption
1 liter covers 7-9 m².

Application Tool
Brush

Number of Coats
1

Incultme
Ready to use

Packaging Sizes
1L - 2,5L - 15 L

For more detailed information, please refer to the Technical Data Sheet (TDS).
